

THE MAGIC OF HANDWEAVING – THE BASICS AND BEYOND TRADITION IN THE MAKING

INDEX * COMMENTS

To see the GENERAL CONTENT of this book, check the book’s TABLE OF CONTENTS on pages 4-5.

A LAVENDER FLAG was added on the outside of each important reference page, such as the Sett Chart and Yarn Chart, which can be seen when the book is closed. Just open at these flags.

A DETAILED INDEX for this book was planned from the beginning but, at the last minute, the publisher decided room was too limited... better not to cut chapter content. So instead I have include detailed indices on this web page which follows.

You may PRINT OUT these web page Indices and keep these with the book for handy reference. That’s what I do.

Another method: NOTE EACH NEW BOLDED TERM in the book as it is presented, from front to back. These are presented in order, each building understanding based on previous terms.
